AN ANCIENT, WAR-TIME RELIC

In a field, a quarter mile from the Town Hall at Buxton Center, stands a weather-beaten reminder of war days of more than a century ago. It is a square, solidly-constructed brick building with a steel rod pointing skyward, topped by a weathercock that persistently indicates the direction of the winds and storms. This is the ancient Powder House, built in 1813, in accordance with a vote of the inhabitants of Buxton, for storage of ammunition and arms for the Town's defence in case of war.

March 2, 1812, the Town delegated Nathan Elden, Ebenezer Wentworth and Benjamin Emery to serve as a committee "to consult on the expense of building a magazine, ten feet square on the outside, one foot and one inch thick, and of the best bricks and lime. It must have a good brick floor and shelves for putting the ammunition and camp kettles on. It must be arched over with bricks and have a well-boarded and shingled roof. The magazine must have two doors, with stout hinges and locks, and be built six feet high where the arch of the roof begins."

Theodore Elwell, the lowest bidder, took the contract at the munificent price of \$59. He completed the job in the fall of 1813, and the next spring the Town's stock of powder, leaden balls, flints and camp kettles was moved from its former repository, in the home of Committee-man Wentworth, to this official arsenal, ceremoniously dedicated and placed in custody of Captain Samuel Dunnell. It still looks defiant, though it has housed nothing military for more than three-quarters of a century.

STATE AID ROADS

Funds for the State Aid roads are set up every two years by the Legislature and apportioned to the towns according to their valuation. These funds are parcelled out in the form of units, Buxton's unit being \$864.00.

Chapter 229, Public Laws of 1937, specifies that towns may appropriate a maximum of two units of State Aid. The act further specifies in effect that the first unit shall be matched in full from State funds and that the second unit shall be matched as far as funds are available. In 1938 it was possible to match only one and one-half units of town appropriations.

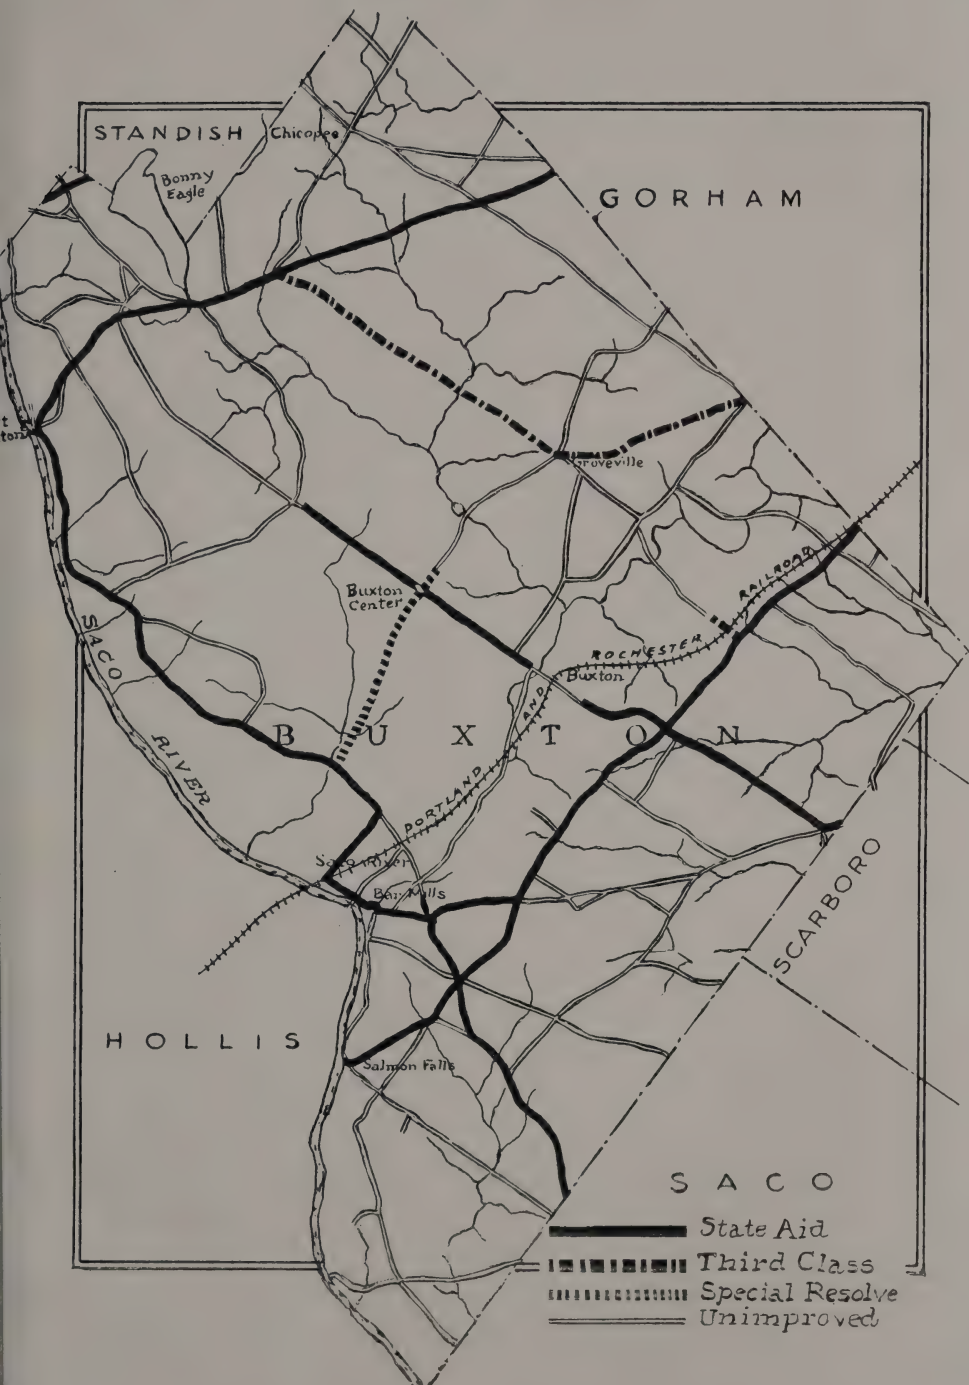

As soon as a section of State Aid road is completed, the maintenance is assumed by the State at a cost of \$30.00 per mile, chargeable to the town.

THIRD CLASS ROADS

The expenditure of money appropriated for the construction of third class roads shall be under the general supervision of the Commission, and shall be apportioned among the various towns, according to the number of miles of third class roads maintained therein, as determined by the Commission; provided, that such towns shall have prior to November 1st in the year next preceding, cut and removed all trees, shrubs and useless fruit trees, bushes and weeds, except shade trees, timber trees, cared-for fruit trees and ornamental shrubs growing between the road limit and the wrought part of any improved section of State highway, State Aid highway, and third class road locations.

In order for a town to be entitled to third class apportionment, the town shall annually raise for maintaining the improved sections on third class highways designated to receive third class apportionments in such town, a sum not less than three per cent of the total expenditures for constructing these highways made during and after the year 1927.

ROADS OF BUXTON

SPECIAL RESOLVE ROADS

Every two years the sum of \$300,000.00 is divided among the sixteen counties by the Legislature to be used on special resolve roads.

The sum necessary for maintenance is determined by the State supervisor who bases his estimate on the condition of the road.

UNIMPROVED ROADS

Extract from Chapter 229, Public Laws of 1937

Section 1 (n)—\$200,000.00 annually to be used solely for the maintenance of unimproved roads; such maintenance work to consist of road machine work, drainage and gravelling.

The fund for unimproved roads shall be allotted annually to cities, towns and plantations, in proportion to the number of miles of unimproved roads located within their respective limits, as determined by the State highway commission. Unexpended balances shall be available for expenditure in the succeeding year.

The administration and expenditure of this fund shall be under the general supervision of the State highway commission. Location of roads for improvement under the provisions of this subsection shall be recommended by municipal officers and subject to approval by said commission. After approval of location, towns may proceed to expend their allotments and shall be reimbursed upon receipt by said commission of sufficient evidence of expenditure.

Expenditure of the funds obtained under the provisions of this subsection shall be limited to \$1,500.00 on any one mile of any road during a period of ten years.

BUXTON SCHOLARSHIP IN BOWDOIN COLLEGE

Certain citizens and natives of Buxton, in the County of York, and State of Maine, propose to give the sum of Fifteen Hundred Dollars to Bowdoin College in said State, provided that it shall be accepted by said college on the terms and conditions hereinafter named.

The fund shall be called the Buxton Scholarship, and under that name the Treasurer of the College shall keep a separate account herewith, and shall credit it with all sums that may be received from any source, and shall charge it with all sums that may be lawfully paid on account thereof. All sums actually expended in the care and management of the Fund shall be charged to it, but for such care and management no charge shall be made.

One-quarter part of the annual income shall be added annually to the principal, and thereafter become an integral part thereof.

No part of the principal shall ever be expended, but shall be kept forever invested in some way that may be expected to produce a regular annual income.

After deducting from the annual income any expenses that may have been incurred within the prescribed limits, and adding one-quarter of the remainder to the principal, then the remaining three-quarters shall be used for the purposes hereinafter mentioned.

The object of the Fund is, from the three-quarters of the income as aforesaid, to pay the tuition of the student who may obtain the benefit thereof, or so much of the tuition as the said three-quarters will liquidate. If said three-quarters shall be in excess of the annual tuition, then such excess shall be annually added to and become an integral part of the principal.

No student shall have the benefit of the Fund who does not enter College with the express intention, declared in

writing, of going through the whole of the regular undergraduate course upon which he may enter, which must be a course of not less than three years; it being understood, however, that he may enter upon such course at any time that the rules of the College may allow, but at least one year before the close thereof.

A student may make application for the benefit of the Fund as soon as he shall be admitted to the regular course aforesaid; but he shall have no right to receive the benefit thereof until he shall have passed one full year from the time of his admission in the prescribed course of study, nor unless he shall then be in good standing, and so entitled to his degree, or to continue in said regular course.

Thereafter he shall have the benefit of the Fund from time to time as his tuition shall become due, provided he shall have passed his regular examinations, and be then in regular standing in his class.

Applicants for the benefit of the Fund shall have preference in the order of the classes hereinafter named.

CLASS FIRST

The applicant must be a native of the said town of Buxton, as must also be one at least of his parents.

CLASS SECOND

Either the applicant or one of his parents must be a native of said town.

CLASS THIRD

The birthplace of the applicant or of his parents need not be regarded, but his domicile must be in said town, which must also be the residence of his parents, parent, or guardian.

To bring himself within either of these three classes, the domicile of the applicant must be in said town; and the actual residence of his parents, parent, or guardian must have been, if the applicant is of the first class, continuous in said town for one year; and if of the second class, two years; and if of the third class, three years immediately prior to the date of his application.

CLASS FOUR

If for the term of three successive years there shall have been no applicant from either of the three preceding classes actually admitted to the regular undergraduate course herein named, then the benefit of the Fund may be given, in the discretion of the College Faculty, under such terms and restrictions as it may seem fit to impose, to any applicant in the undergraduate course that may by the Faculty be selected; with the understanding that when an applicant from this class shall have been once admitted to the benefit of the Fund, he shall not be deprived thereof in favor of either of the preceding classes.

In case there shall be at any time two or more competing applicants from one of either of the above-named classes, and that class at the time is entitled to the benefit of the Fund, then the College Faculty shall determine to which one of the competitors the benefit thereof shall be given; unless the competitors shall, by a declaration in writing by them signed and filed with the College Faculty, agree upon some specified division to each of the sum which would otherwise have been paid to one.

The applicant for the benefit of this Fund must present a written application therefor to the College Faculty, in which he must state under which of the above-named classes he makes his application, and set forth all the facts necessary to bring him within that class, giving his full name, birthplace, date of birth, and the names of his parents whether living or dead, and the name of his guardian, if he have one, together with any additional matter which the College Faculty may require him to subscribe to, and not inconsistent herewith; and he shall say in his application that he hopes to be able and willing to return to the Fund, at some time whatever he may receive from it. It is expected that the application which he is thus required to sign shall be drawn or dictated by some person acting under the sanction of the College Faculty, so that it may be in due form and contain all that is required.

The Treasurer of the College shall not only charge in his regular accounts all sums that may be paid to or for, or that may be received from, any beneficiary, but he shall also enter them on the original application, so that that instrument may itself show all the facts in the case.

The College Faculty may, by a vote duly taken and recorded, deprive a beneficiary wholly or in part of the benefit of the Fund at any time, giving him immediate notice thereof; and the fact of a vote so passed and recorded shall be sufficient justification of its action to any tribunal before which it may be called to render a reason for such action; provided that such deprivation shall not be made with the object or result of diverting this Fund or any part thereof to some other object than the one hereby intended.

It is hoped that by the annual increase of the Fund hereby provided for, and by the sums which beneficiaries may refund and others may give, it will in the course of time be so increased as to be sufficient to meet the tuition of two or more students; but no part of the income shall be applied to the payment of the tuition of more than one student until the three-quarters of the income as aforesaid shall be sufficient to pay the full annual tuition of two students, and so on for a greater number. When the Fund shall be sufficient for paying the tuition of two students, it shall thereafter be called

THE BUXTON SCHOLARSHIPS

If the Fund shall so increase as to be sufficient to pay in one year the tuition of four students as the same shall become due, then the increase of the Fund shall go on thereafter until it shall reach from the three-quarters of the annual income as aforesaid, the yearly annual income of Five Hundred Dollars over and above the annual tuition of four students.

Then

THE BUXTON FELLOWSHIP

shall be established for the benefit, in the order of the four classes above-named, of those who may have passed

through the regular undergraduate course; and the same general rules that apply to a Scholarship shall, so far as applicable, apply to a Fellowship, to which the College Faculty may add any other rules not inconsistent therewith; but no one person shall have the benefit of the Fellowships for more than three years.

Any increase of the Fund beyond what is herein provided for shall be added to the general income of the College, or to be used for the establishment of additional Scholarships or Fellowships as the Corporation may determine.

The right of visitation shall be in the Selectmen of said town, who are expected to see that the Fund is not diverted to other purposes than those intended.

The Treasurer of the College shall make an official report annually to said Selectmen, not less than ten nor more than thirty days before the annual town meeting, showing the condition of the Fund, how invested, the annual income or other receipts during the year preceding, as also the payments during the same time, with such other items as may be necessary for a full understanding of the subject.

The Treasurer is requested to make this statement in suitable shape for preservation, with a margin for binding, on good paper of uniform size.

It is expected that the Selectmen will cause the statement, so made, to be read at the annual town meeting and then carefully preserved.

When this proposition shall be accepted by a vote of the Corporation, duly recorded, and the money paid over, then this instrument shall be recorded in the records of the College; and three copies thereof, with the vote of acceptance appended, shall be made, and be verified by the signatures of the President and of the Secretary, and by affixing thereunto an impression of the seal of the College.

One of these copies shall be deposited with the Treasurer of the College, one with the Maine Historical Society, and the other with the Selectmen of said town.

April 9, 1873.

Auditor's Report

STATE OF MAINE

STATE DEPARTMENT OF AUDIT

DIVISION OF MUNICIPAL ACCOUNTS

AUGUSTA

October 6, 1938.

To the Inhabitants of the Town of Buxton:

This is to certify that this department, represented by Mr. E. H. Shute and Mr. M. A. Napolitano, have completed an audit of your town accounts for the year 1937 and for the current year to September 1st.

After verifying the receipts and expenditures for the 1937 year and for the current period, we establish the balance, as per our report, by working back from the balance on deposit, as reconciled, at September 1, 1938.

With the new bookkeeping system, as recommended by this department and now in use, a more accurate report of your financial transactions can be made at the close of your current year.

Based on our examination and subject to above comments, the accompanying Balance Sheet and other statements fairly present the financial standing of your town at February 7, 1938, and the result of its operations for the year.

We offer our sincere thanks for the coöperation given us during the course of this audit by your town officers.

Respectfully submitted,

STATE DEPARTMENT OF AUDIT,

HAROLD E. CRAWFORD,

Chief Auditor.

School Report

REPORT OF SUPERINTENDENT OF SCHOOLS

*To the Superintending School Committee and the Citizens
of the Town of Buxton:*

The annual report is herewith submitted:

WEST BUXTON BUILDING

It was necessary to remodel the West Buxton Building in order to comply with the State requirements. The sum of \$1,000.00 was appropriated for this work. A large amount of work was accomplished yet we have kept within this appropriation. This remodeling was a difficult undertaking owing to the dilapidated condition of the building and the necessity of doing this work with as small expense as possible. The foundation was jacked up into place and the building made as nearly plumb as possible. New outbuildings were built and attached. All of the interior of this large building was not needed for a classroom. So it was decided to take sufficient space in one end of the building and construct a classroom instead of remodeling the whole building. This room is approximately of standard length and width, and makes a very satisfactory classroom. Large windows were placed on one side and composition board was used on the walls; and the walls and ceiling were painted in light attractive colors. This room is now well lighted and all glare has been eliminated by having the windows on one side only. It was necessary to lay a new floor. Additional blackboards have been purchased. With all of these changes the working conditions have been greatly improved. It is heated by a box stove without the cost of an expensive heater. The appearance of the outside of the building has been greatly improved by painting.

New Draper Shades were purchased for the Shadigee School. It was necessary to repair the Bar Mills heating system. The grate bars in the boiler were replaced and new valves were purchased.

A new Royal typewriter was purchased for the high school. This new machine will greatly aid the work in the high school, especially in cutting stencils for the mimeograph. A good trade-in allowance for the old machine was secured. This machine has the long carriage and a mathematical keyboard; and will be very useful in getting out the school paper. A new mimeograph has been purchased which does excellent work. A large amount of work is done on the mimeograph; the school paper and other projects; and it is a valuable aid in providing work to supplement the textbooks.

We have added to the high school library by the purchase of a number of new books in compliance with the State requirements.

CONVEYANCE

It was necessary to furnish additional conveyance this year owing to children residing long distances from the nearest school. The conveyance at Salmon Falls has been discontinued.

So many requests for conveyance have been received that it seems desirable to submit the law covering the question of conveyance:

Section 2, chapter 19, R. S. The superintendent of schools in each town shall procure the conveyance of all common school pupils residing in his town, a part or the whole of the distance, to and from the nearest suitable school—when such pupils reside at such a distance from the said school as in the judgment of the superintending school committee shall render such conveyance necessary.

The transportation furnished is determined quite largely by the distance; the condition of the roads; season of the year; and the age and physical condition of the children.

We appreciate the continued support of the schools in providing additional privileges and educational advantages for the pupils, the adequate appropriations for all school

accounts, the remodeling of the West Buxton building, the repair account which makes possible the excellent upkeep of all buildings, sufficient funds for the employment of an excellent force of teachers in the high and elementary schools. These teachers are well supplied with up-to-date working equipment.

STATE SCHOOL FUND ACCOUNT

To unify accounts it is recommended that the appropriations for high school and elementary school and textbooks and supplies be raised under one article.

The proposed budget for the ensuing year:

Elementary schools,	\$ 8,400.00
High school,	4,500.00
Textbooks and supplies,	1,100.00
Total to be raised under one article,	14,000.00
Repairs on buildings,	700.00
Music,	500.00
Insurance on buildings,	250.00

Respectfully submitted,

GEORGE E. JACK,

Superintendent of Schools.

Report of School Clinic at Buxton-Hollis Hospital

I herewith, submit report on the School Clinic and free-bed service for the town of Buxton.

Fourteen tonsilectomies and one adenoidectomy were performed during the fiscal year.

One hundred children attended the twenty-three Dental Clinics the last year, all of which had examinations and cleaning of the teeth. In addition to this there were fifty-seven extractions and one hundred ninety-nine fillings. The Dental Clinics are increasing each year, not only in the number of children attending but also in the amount of work done for them.

We have been told by the Dental Health Nurse of Augusta that Buxton and Hollis children have teeth in better condition than in many towns of the same size, a condition for which we believe the Clinic to be largely responsible.

There has been very little free-bed service in the past year. However, several boys and girls from the high school have been to the hospital for emergency treatment.

An unusual amount of gifts in the form of money, hospital supplies and groceries have been donated to the hospital by our many friends of both towns. We are very appreciative of this interest in our institution and it encourages us greatly in our endeavor to serve the public.

We wish to take this opportunity to thank the Keep Klimbing 4-H Club, American Legion and Auxiliary, Sunshine Club of Hollis, Mr. and Mrs. S. B. Shepard, Miss Lelia Usher, Christmas Club, River Road Circle, People of Groveville, Mrs. Fred Hanscom, Mrs. Wm. Meserve, Miss Mary Shepard, Mrs. Lucy Trask, Mrs. Algenon Dyer, Miss Jennie Shepard, Mission Circle of Buxton Center, Pythian Sisters of Hollis Center, Baptist Church Ladies' Aid of Hollis Center, Hollis Grange, Keep Kuning Klub, Dorcas Society, George Pelrine and Lewis Woodman for gifts and donations to the hospital.

Respectfully submitted,

A. G. WILEY, M. D.

Report of Fire Ward

To the Municipal Officers and Citizens of Buxton:

I herewith submit the following report for the fire department for the year 1938.

During the past year your department answered thirty-two calls.

Nineteen were chimney fires, six buildings, four forest fires, one grass fire, one automobile fire, and one false alarm.

Respectfully submitted,

MAURICE R. GOODSON,

Fire Ward.
